Dustless Blasting
Priming & Jet Washing Service

The Future of Surface Preparation is here...

Profi Blast offers both **Dry** and **Wet** (dustless) blasting, using **Eco-Friendly** recycled crushed glass. We can remove **Any** type of coating from **Any** type of surface, without creating heat or a dust plume (when wet blasting). Our process does not use any toxic chemicals and causes no pollution.

When wet blasting our system produces no dust plume.
